

## Name : Omkar Arun Gaikwad

### Intern at Flare Global Soft

Completion of #TASK 2 :

Building an counter application using react hooks(useState)

Including a increment decrement and a reset button .

Source code :**ReactJS**

```
import React, { useState } from "react";
import "./styles.css";
function App() {
  const [count, setCount] = useState(0);
  return
    <div className="container">
      <h1>Counter App</h1>
      <h2>{count}</h2>
      <button className="increment" onClick={() => setCount(count + 1)}>Increment</button>
      <button className="decrement" onClick={() => setCount(count - 1)}>Decrement</button>
      <button className="reset" onClick={() => setCount(0)}>Reset</button>
    </div>
  </div>
  );
}
export default App;
```

Source code : **CSS**

```
.container {
  margin-top: 50px;
  background: rgba(255, 255, 255, 0.8);
  padding: 20px;
  border-radius: 10px;
  box-shadow: 0 0 10px rgba(0, 0, 0, 0.1);
  width: 300px;
  margin-left: auto;
  margin-right: auto;
}
```

```
h1 {  
  color: #333;  
}
```

```
button {  
  margin: 5px;  
  padding: 10px 15px;  
  border: none;  
  color: white;  
  cursor: pointer;  
  font-size: 16px;  
  border-radius: 5px;  
}
```

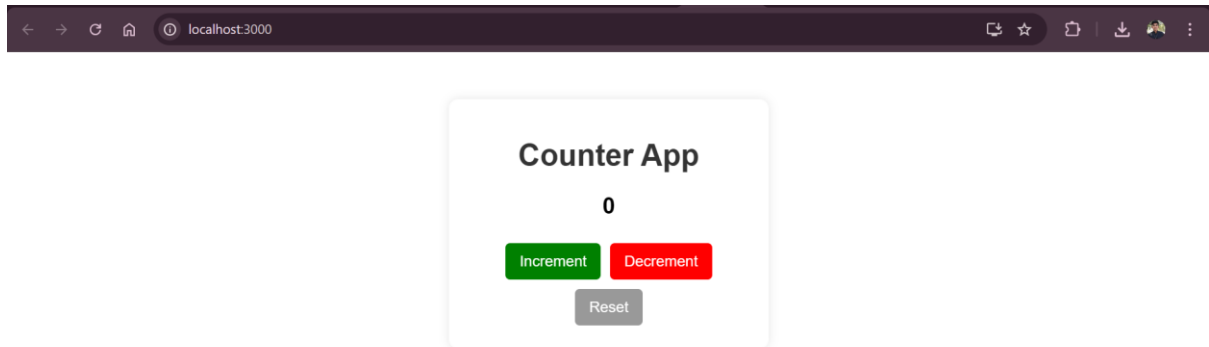

```
button:hover {  
  opacity: 0.8;  
}
```

```
.increment {  
  background-color: green;  
}
```

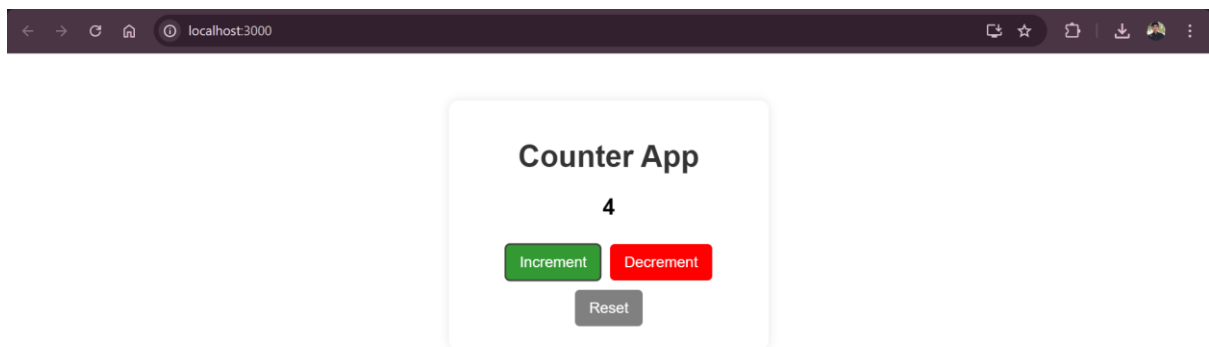

```
.decrement {  
  background-color: red;  
}
```

```
.reset {  
  background-color: gray;  
}
```

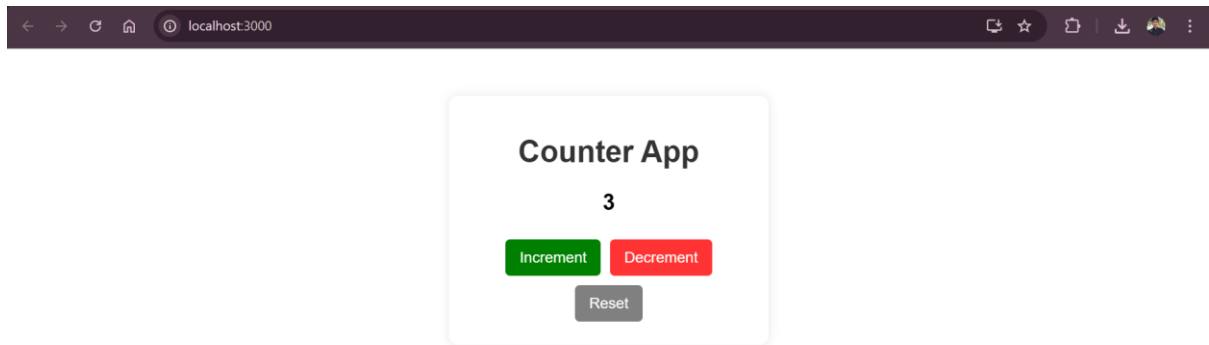

## Output : Counter Application

## Output 2 : Button INCREMENT

Output 3 : Using decrement button

Output 4 : Using Reset Button :
